**PACT
FOR THE
FUTURE**

United Nations Adopts Ground-Breaking Pact for the Future to Transform Global Governance

Outcome document: Pact for the Future

World leaders adopt a **Pact for the Future** that includes a **Global Digital Compact** and a **Declaration on Future Generations (A/RES/79/1)**. The Pact covers a broad range of themes, including peace and security, sustainable development, climate change, digital cooperation, human rights, gender, youth and future generations, and the transformation of global governance.

LINK: [Pact for the Future \[pdf\]](#)

NEW YORK, 22 September — World leaders today adopted a Pact for the Future that includes a Global Digital Compact and a Declaration on Future Generations. This Pact is the culmination of an inclusive, years-long process to adapt international cooperation to the realities of today and the challenges of tomorrow. The most wide-ranging international agreement in many years, covering entirely new areas as well as issues on which agreement has not been possible in decades, the Pact aims above all to ensure that international institutions can deliver in the face of a world that has changed dramatically since they were created. As the Secretary-General has said: “We cannot create a future fit for our grandchildren with a system built by our grandparents.”

Overall, the agreement of the Pact is a strong statement of countries’ commitment to the United Nations, the international system and international law. Leaders set out a clear vision of an international system that can deliver on its promises, is more representative of today’s world, and draws on the energy and expertise of governments, civil society and other key partners.

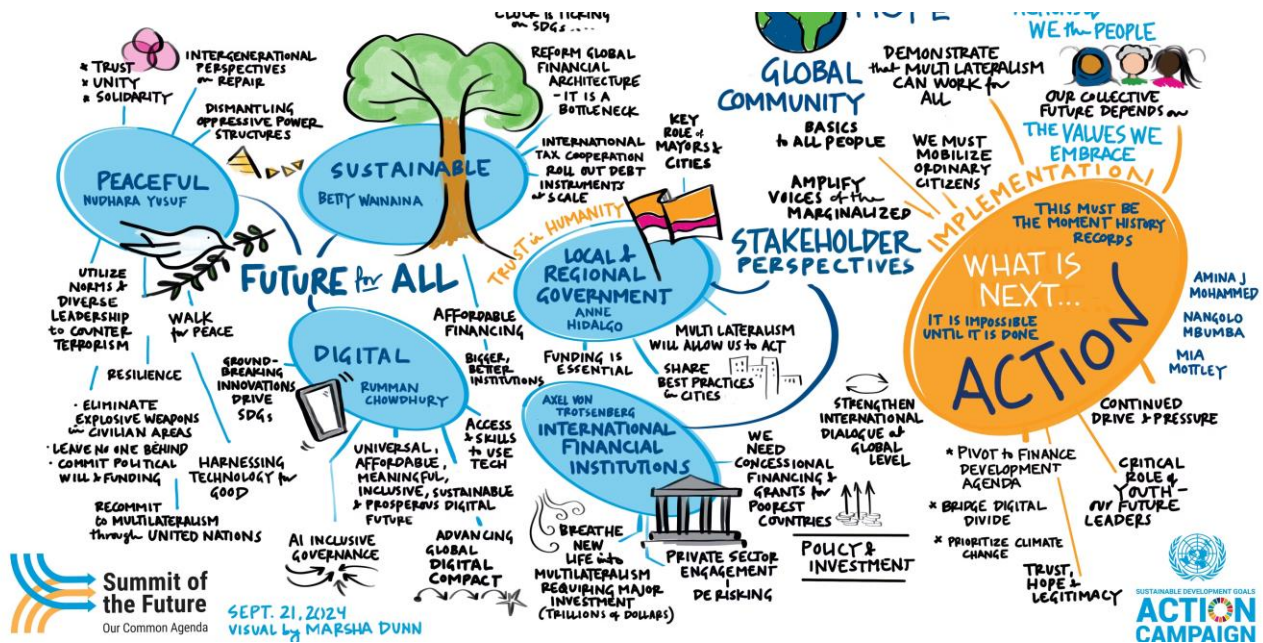

“The Pact for the Future, the Global Digital Compact, and the Declaration on Future Generations open the door to new opportunities and untapped possibilities,” said the Secretary-General during his remarks at the opening of the Summit of the Future. The President of the General Assembly noted that the Pact would “lay the foundations for a sustainable, just, and peaceful global order – for all peoples and nations.”

The Pact covers a broad range of issues including peace and security, sustainable development, climate change, digital cooperation, human rights, gender, youth and future generations, and the transformation of global governance. Key deliverables in the Pact include:

In the area of peace and security

- The most progressive and concrete commitment to Security Council reform since the 1960s, with plans to improve the effectiveness and representativeness of the Council, including by redressing the historical underrepresentation of Africa as a priority.
- The first multilateral recommitment to nuclear disarmament in more than a decade, with a clear commitment to the goal of totally eliminating nuclear weapons.
- Agreement to strengthen international frameworks that govern outer space, including a clear commitment to prevent an arms race in outer space and the need to ensure all countries can benefit from the safe and sustainable exploration of outer space.

- Steps to avoid the weaponization and misuse of new technologies, such as lethal autonomous weapons, and affirmation that the laws of war should apply to many of these new technologies.

On sustainable development, climate and financing for development

- The entire Pact is designed to turbo-charge implementation of the Sustainable Development Goals.
- The most detailed agreement ever at the United Nations on the need for reform of the international financial architecture so that it better represents and serves developing countries, including:
 - Giving developing countries a greater say in how decisions are taken at international financial institutions;
 - Mobilizing more financing from multilateral development banks to help developing countries meet their development needs;
 - Reviewing the sovereign debt architecture to ensure that developing countries can borrow sustainably to invest in their future, with the International Monetary Fund (IMF), UN, G20 and other key players working together;
 - Strengthening the global financial safety net to protect the poorest in the event of financial and economic shocks, through concrete actions by the IMF and Member States;
 - Accelerating measures to address the challenge of climate change, including through delivering more finance to help countries adapt to climate change and invest in renewable energy.
 - Improving how we measure human progress, going beyond GDP to capturing human and planetary wellbeing and sustainability.
- A commitment to consider ways to introduce a global minimum level of taxation on high-net-worth individuals.
- On climate change, confirmation of the need to keep global temperature rise to 1.5°C above pre-industrial levels and to transition away from fossil fuels in energy systems to achieve net-zero emissions by 2050.

On digital cooperation

- The Global Digital Compact, annexed to the Pact, is the first comprehensive global framework for digital cooperation and AI governance.
- At the heart of the Compact is a commitment to design, use and govern technology for the benefit of all. This includes commitments by world leaders to:
 - Connect all people, schools and hospitals to the Internet;
 - Anchor digital cooperation in human rights and international law;
 - Make the online space safe for all, especially children, through actions by governments, tech companies and social media;
 - Govern artificial intelligence (AI), with a road map that includes an International Scientific Panel and a Global Policy Dialogue on AI;
 - Make data more open and accessible, with agreements on open-source data, models and standards;
 - This is also the first global commitment to data governance, placing it on the UN agenda and requiring countries to take concrete actions by 2030.

Youth and future generations

- The first-ever Declaration on Future Generations, with concrete steps to take account of future generations in our decision-making, including a possible envoy for future generations.
- A commitment to more meaningful opportunities for young people to participate in the decisions that shape their lives, especially at the global level.

Human rights and gender

- A strengthening of our work on human rights, gender equality and the empowerment of women.
- A clear call on the need to protect human rights defenders.
- Strong signals on the importance of engagement of other stakeholders in global governance, including local and regional governments, civil society, private sector and others.

There are provisions across the Pact and its annexes for follow-up action, to ensure that the commitments made are implemented.

Summit process

The Summit process and the Pact have been deeply enriched by the contributions of millions of voices and thousands of stakeholders from around the world.

The Summit brought together over 4,000 individuals from Heads of State and Government, observers, intergovernmental organizations, UN System, civil society, and non-governmental organizations. In a broader push to increase the engagement of diverse actors, the formal Summit was preceded by the Action Days from 20-21 September, which attracted more than 7,000 individuals representing all segments of society. The Action Days featured strong commitments to action by all stakeholders, as well as pledges of \$1.05 billion to advance digital inclusion.

UNITED PEACERS - WORLD COMMUNITY FOR A NEW HUMANISM

THE WORLD COMMUNITY FOR A NEW HUMANISM INTRODUCTION

With this brief document, we intend to inform on the progress being made and to encourage interest and participation in this challenging international project which necessarily has the characteristics of non-political, non-denominational and is free from the system or partisan interests, addressing precisely individual peacemakers all the world and their associations.

The ongoing realization of the "**World Community for a New Humanism**" represents a point of arrival and at the same time a starting point. It is something that starts from afar and that brings with it a lot of experience, commitment, research and innovation. The fundamental stimuli come from UNIPAX:

UNIPAX - World Union for Peace and the Fundamental Human Rights and the Rights of Peoples - is a non-profit making, non-denominational NGO that is independent from political parties and economic interests, that works at a national and international level.

It is associated with the UN/DGC United Nations Department of Global Communications. It is associated with the ASviS, the Italian Alliance for Sustainable Development - Agenda 2030 of the United Nations - and collaborates with the main international organizations and institutions and in particular with the European Union and the Council of Europe.

Its main objective is to put itself at the service of those who want to be peacemakers and builders of a New Humanism

UNIPAX makes available to the Community all its more than thirty years of experience including a International Database containing over 100,000 organizations from all continents committed to civil coexistence and peace. With about 30,000 of these has already started the first contacts.

Together with other major national and international organizations becomes the starting point for an initiative that could be considered historical.

We have prepared ourselves since the beginning of 2017 at the birth and start of: "**UNITED PEACERS - The World Community for a New Humanism**" creating a working group of 16 people all selected with adequate and demonstrated ethical drive and a high professional preparation.

The World Community is based on the belief that it is necessary to act with determination because, as we know, many and serious are the planetary emergencies. Consequently, the concern for the future is progressively increasing among the citizens. Only by joining the strength of all those who care about respect for fundamental rights is it possible to guarantee civil coexistence and peace.

THE WORLD COMMUNITY FOR A NEW HUMANISM

THE WORLDWIDE NETWORK OF PEACEMAKERS

The multilingual platform to dialogue and collaborate together

All PEACEMAKERS (PEACERS) have a limit, they are not important enough in the world. Therefore, to be important, the Peacers must unite their voices and create a shock wave, a roar of peace, which cannot remain unheard. In order to keep their independence and operational, all the world's Peacers need to be united, to talk, to be connected, with the possibility of coordinating at international level and supporting each other in the various initiatives carried out both at individual and collective level, so that the world can understand that the peace workers exist and are numerous, they know what they want and they are, all together, determined to get it. So there will not be single Peacers, only armed with good will but weak, but a solid and operational global network of UNITED PEACERS.

It is essential to understand that acting together means doing interdisciplinary campaigns together and at the same time, everyone will remain an active specialist in his sector, but joint actions must be inter-disciplinary. We must make it clear that we are strongly united in the essential things concerning survival, people's dignity, quality of life, civil coexistence and peace. Hence the deep sense of the United Peacers Community, understood as the common home of peace makers, through which we can make, all together, concrete and interdisciplinary proposals; this is the reason for proposing a maxipetition addressed to the Heads of State and Government that in fact is a set of ten petitions concerning ten essential issues, all aimed at showing that problems can be addressed one by one, depending on their sector, but the whole can make sense and succeed only if coordinated in a unicum because the essential problems for the common good are related one another. Just a few examples: we cannot expect concrete and positive results in the financial and economic field, such as a more equitable distribution of wealth, sustainable

development, protection of the environment or the end of wars and of the unbridled arms race, and so on, if we do not face the problem of supranational democratic institutions which can impose and enforce rules in the interests of the citizen of the world! As known, each Nation mainly cares for its own interests, even they are in contrast with the most general interests of peoples. The associations that form **UNITED PEACERS** and their peacemakers must work together to identify and refine the main requests, the basic vital proposals, the minimum common denominators, in order to guarantee the civil coexistence and peace. These requests must be submitted, with the strength of large numbers, to national and international institutions. In this respect, an important opportunity is offered to everyone from the **Platform of the "World Community for a New Humanism" (www.unitedpeacers.org)**. It is a virtual meeting point, internationally accessible, structured, efficient and allowing a constant dialogue in real time to develop proposals and requests together.

The Platform allows you to manage all the events that require participation in the Community in complete autonomy, even through a discussion Forum so as to make sharing aware and interactive.

UNITED PEACERS is built together, it is not simply adhered to, it is our common home, our World Community, so it is all of us who intend to work for its international development worldwide. From the union of forces, from the connection of the proposals and requests, surprising results can be obtained that are impossible to obtain separately. **The whole, if coordinated and channeled in the context of the "Peaceful Global Revolution for a New Humanism" to be pursued together as UNITED PEACERS, can truly mark a turning point in the course of History.**

The invitation to collaborate without personalism and parochialism, obviously guaranteeing everyone their own freedom and specificity, is here presented spontaneously and naturally, knowing that only by acting together on the essential requests for our future, we citizens of the world together our organizations, can hope for a New International Renaissance and with it in a New Humanism of civil coexistence and peace.

The World Community is preparing the launch of an initial proposal of the operational project that will be perfected together, making particular reference to the text: *"The Peaceful Global Revolution for a New Humanism - The ways out from the World Emergencies"* by Orazio Parisotto Founder and President of UNIPAX and promoter of the UNITED PEACERS FOUNDATION.

Through the specific multilingual platform, the World Community submits to the evaluation and contributions of peacemakers from around the world documents and operational proposals that are listed here and also other proposals that will emerge in the work of the World Community itself: *World Register of Peacemakers; Universal Charter of Fundamental Duties (draft); UN Third Millennium (hypothesis); World Regulation for Civil Coexistence (draft); Maxi Petition in Ten Points (draft)*.

We are preparing an international information campaign to stimulate constructive participation of all using the media available today.
